"As president of the Issaquah School Board, I already represent 59,358 voters and oversee quarter billion dollar annual budgets. During my tenure our district has achieved the highest rating for education investment – student achievement for dollar spent. With the lowest administrative overhead in King County, the best credit rating in the state, and ten clean state audits, we've demonstrated we can make every dollar count. I will take this proven culture of fiscal responsibility and performance accountability to Olympia, promoting meaningful spending reductions over budget gimmicks and constitutional priorities over pet projects. *Together we can get Washington working again.*" – **Chad**
